**(SURVIVOR)**  
extreme lighting | no boundaries

## SERIES SV1.0 [R] RECESSED

**SV1.0 [R] RECESSED:** Recessed luminaire constructed from heavy gauge aluminium extrusion and Survivor Lighting's unique fully encapsulated IP66 and IK10 polycarbonate light module. Available as easy to install individual units, or Plug 'n' Play continuous systems. All of which can be tamper proof, vandal proof and suitable for the most extreme conditions.

**APPLICATIONS:** Interior or Exterior - Correctional Facilities, High Security Areas, Railway Platforms, Police Stations, Under Canopy Lighting, Tunnel Lighting, Car Parks, Hospitals, Airports and other applications where a robust lighting solution is required.

**MOUNTING:** Recessed - Gyprock Clip or Suspended.

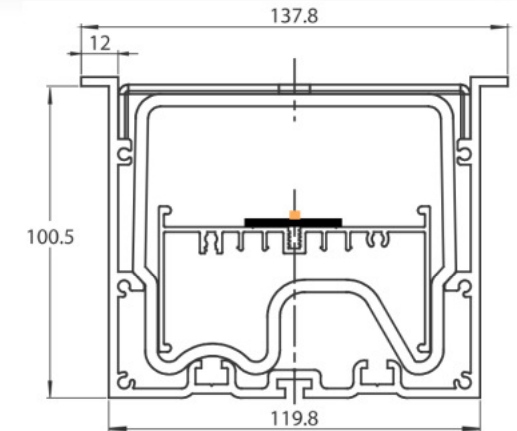

**LAMPS:** T5 & T8 - Single or Twin, Tridonic LED. Other configurations on request.

**COLOURS:** Textured Black or Pearl White Powdercoat as standard. Other finishes, including anodising, on request.

**OPTIONS:** Dimmable ECG, Emergency pack (T5), IP66 Plug and Socket, Double Insulated, Proximity Sensor, Photo Cell, Night Light, Opal Diffuser Module. Other options available on request.

**SYSTEM BENDS:** 90 & 135 Degree bends - Horizontal and Vertical. Custom bends on request.

**WARRANTY:** 5 Years.
